OVERHEAD CLEANING AND PAINTING: CEILINGS AND RELATED STRUCTURES

OVERHEAD CLEANING & PAINTING

- Restoration Services
- OSHA Directives Followed
- Clean & Safe Environment
- Established Protocols
- Restore Air Quality
- Industry Standards Compliant
- Dirt Explosions Risk Decreased
- Less Product Contamination
- Prevent Fire & Safety Hazards
- Facility Enhancement

Dust will cause contamination of products and equipment including overhead pipes, lights, ductwork and ceiling plenums. It will also cause poor air quality and environmental contamination. Combustible dust can cause potentially hazardous conditions such as fires and explosions.

The professionals of Preferred can make your warehouse and manufacturing buildings appearance bright, clean and safe with our interior plant cleaning, painting and restoration services.

SINGLE PLY ROOFING: THERMOPLASTICS, THERMOSETS AND MODIFIED BITUMENS

PREFERRED SERVICES

- Eco-Friendly
- Easy Installation
- Money Saving
- Long Life-Cycle
- Strength & Stability
- Lightweight & Flexible
- Chemical Residue Resistance
- Resistant to Thermal Shocks
- Increased Energy Efficiency
- Resistant to High Winds

The leading roof membrane is Single Ply roofing, a superb choice for retail, commercial and flat roofs. Single Ply roofing consists of rubber polymers made from prefabricated sheets of material. Preferred offers a complete line of white and colored single ply roofing membranes.

Single Ply roofing systems will increase energy efficiency due to high SR and IE Scoring, some of the highest in CRRC (Cool Roof Rating Council) and Energy Star.

STEEL TANK PAINTING: COMMERCIAL AND INDUSTRIAL TANKS

PREFERRED SERVICES

- Tank Coating Specialists
- Interior/Exterior Painting
- Tank Cleaning & Disinfecting
- Lasting Durability
- Sand Blasting
- Pressure Washing
- Floor Grouting
- Industry Leading Systems
- Industry Standard Compliant
- High Performance

Preferred is your expert at steel tank painting. Because the exterior of steel tanks are highly vulnerable to corrosion, the structural integrity can be compromised and shorten the life of the tank – we can correct existing corrosion issues beneath the protective coating.

To ensure the extended life of your tank, contact the Preferred coating experts regarding the treatments we use and our tank cleaning and painting process.
